## Experience

---

### Software Engineer - Defense Technology Group

*Booz Allen Hamilton* | 2024 - Present

- Building robust, scalable applications using TypeScript, Nuxt, Ruby on Rails, Mapbox, and more to support defense-technology initiatives.

### Software Engineer - Monetization Team

*Checkr* | 2022 - 2023

- Developed monetization platforms with Ruby on Rails and JavaScript to optimize revenue streams and streamline billing processes.
- Owned rotational on-call duties and delivered timely, accurate invoices to strengthen customer trust and improve service reliability.

### Immigration Services Officer II

*USCIS, U.S. Department of Homeland Security* | 2019 - 2021

- Interviewed applicants and analyzed case data to adjudicate over 1,200 Adjustment of Status and Naturalization applications in full compliance with immigration laws and policies.

### Immigration Analyst (Asylum)

*USCIS, U.S. Department of Homeland Security* | 2017 - 2019

- Conducted asylum security check operations and trained new analysts at the USCIS San Francisco Asylum Office.
- As the lead Immigration Analyst at the South Texas Family Residential Center, managed daily interview scheduling, inquiries, and case intakes.
