Experience

Software Engineer - Monetization Team - Checkr   2022 - 2023
- Designed and developed a fully functioning efficient internal tool for the finance team, using React for the front-end and Ruby on Rails for the back-end, streamlining financial operations and enhancing productivity.
- Enhanced user experience and interaction by updating customer-facing payment pages, leveraging expertise in front-end development using React/Redux to improve user experience, performance optimization, and customer satisfaction boost.
- Owned rotational on-call responsibilities and delivered timely and accurate invoices to build and maintain customer trust and improve the reliability of Checkr services.

Immigration Services Officer II - USCIS, U.S. Department of Homeland Security   2019 - 2021
- Interviewed applicants and petitioners to elicit statements, assessed credibility, and analyzed data to identify facts with established data points to make adjudicative decisions on highly sensitive applications.
- Adjudicated 1200+ Adjustment of Status and Naturalization cases in accordance with immigration laws, regulations, and policies.

Immigration Analyst - USCIS, U.S. Department of Homeland Security   2017 - 2019
- Served as lead Security Checks Immigration Analyst (SCIA) and trained new analysts and officers on asylum security check procedures at the San Francisco Asylum Office.
- Selected as lead Immigration Analyst at the South Texas Family Residential Center and led daily operation of scheduling all Asylum Interviews, answering inquiries, and processing case intakes.

Education

Hack Reactor - Advanced Software Engineering Immersive Program   2021
Columbia University - Bachelor of Arts, Sociology   2017
- Awards: Phi Theta Kappa Honor Society Scholarship, The School of General Studies Scholarship
